## Objectives:

---

Creative and results-driven Frontend Developer with 1.5+ year of experience in building high-performance, user-friendly web applications. Proficient in modern frameworks and libraries including React.js and Next.js, with strong expertise in TypeScript and API integration. Passionate about responsive design and collaborative development, eager to contribute to innovative solutions that enhance user experiences.

## Skills:

---

- **Front-End:** HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React.js, Next.js, SSR/SSG, dynamic routes, API integration, SEO optimization, TanStack Query, Axios, REST API, Redux, Framer Motion, GSAP, Shadcn, Ant Design, Three JS,
- **Tools:** Git, GitHub, VS Code, React DevTools, Chrome DevTools, Netlify, Vercel

## Work Experience:

---

**Frontend Developer** - Softvence Agency (August 2024-Present)

### Responsibilities:

- Co-lead the frontend team in developing high-performance, responsive web applications using **HTML, CSS, Tailwind, JavaScript, TypeScript, React.js, and Next.js**.
- Collaborated with backend developers to **integrate REST APIs**, manage state, and implement real-time updates for dynamic applications.
- Resolved **responsive design and cross-browser compatibility** issues while optimizing performance through code refactoring, lazy loading, and testing.
- Partnered with clients to **gather requirements, implement revisions, and ensure satisfaction**, following agile methodologies for timely project delivery.

## Projects:

---

**Hekto(React JS)**

[Live](#) || [GitHub](#)

### Responsibilities & Features:

- Designed and developed a responsive e-commerce application using React.js, Tailwind CSS, and JavaScript.
- Integrated a cart system for adding, updating, and removing items.
- Ensured fully responsive design for seamless performance across desktop, tablet, and mobile devices.
- Built a search functionality to quickly locate products.
- Optimized performance through reusable components, clean code structure, and state management with React Redux.

## 10 Minutes Landing Page (Next JS)

[Live](#) | [GitHub](#)

### Responsibilities & Features:

- Developed the landing page using Next.js, TypeScript, and Tailwind CSS.
- Implemented Server-Side Rendering (SSR) to fetch and display data dynamically.
- Real-time data rendering with server-side fetching.
- Ensured fast performance with optimized code and lightweight components.
- Designed a responsive layout optimized for desktop, tablet, and mobile

## Protein Foods (React + GSAP Website)

[Live](#) | [GitHub](#)

### Responsibilities & Features:

- Developed the website using React.js for component-based architecture and reusable UI elements.
- Implemented animations and transitions using GSAP to enhance user engagement and visual appeal.
- Created responsive layouts to ensure seamless viewing on desktop, tablet, and mobile devices.
- Smooth scrolling and animated elements powered by GSAP

## Fitness Gym (HTML, CSS, Vanilla JavaScript)

[Live](#) | [GitHub](#)

### Responsibilities & Features:

- Developed the project using HTML and CSS, focusing on responsive layouts with media queries for mobile, tablet, and desktop.
- Designed a responsive layout that adapts seamlessly across desktop, tablet, and mobile devices.
- Structured components for sections like Home, Services, Trainers, Membership Plans, and Contact.
- Enhanced the UI with animations and transitions for an engaging experience

### Educations:

---

Bachelor of Business Administration

Higher Secondary School

National University (2023-2027)

Adamji Nagar M.W College(2020-2022)

### Courses:

---

Complete Frontend Development.     Creative It Institute(October 2023 – June 2024)
